Guidelines, Standards, & Ordinances

HDBR Guidelines:

Madison Historic District Design Guidelines – 24.0 NEW CONSTRUCTION - OUTBUILDINGS p. 101-102

24.1 The design of new garages and other accessory buildings should be compatible with dwellings in the historic district.

24.2 Site new garages and accessory buildings appropriately on the lot.

24.5 Materials used for new garages and outbuildings should reflect the historical development of the property.

24.6 Generally, the eaves and roof ridge of any new outbuilding should not be higher than those of the existing primary building.

24.7 Windows which are readily visible from the public right-of-way should be appropriate to the style of the house. Visible pedestrian doors should either be appropriate for the style of house to which the outbuilding relates or be flat with no panels.

24.8 Metal garage doors with a paneled design may be appropriate.

24.9 At double garages, two single garage doors rather than one larger, double door should be installed.

Ordinance:

151.34 Visual Compatibility Factors

(A) Height. The height of proposed buildings shall be visually compatible with adjacent buildings.

(B) Proportion of building's front facade. The relationship of the width of building to the height of the front elevation shall be visually compatible to buildings, squares, and places to which it is visually related.

(C) Proportion of openings within the facility. The relationship of the width of the windows to height of windows in a building shall be visually compatible with buildings, squares, and places to which the building is visually related.

(D) Rhythm of solids to voids in front facades. The relationship of solids to voids in the front facade of a building shall be visually compatible with buildings, squares, and places to which it is visually related.

(E) Rhythm of spacing of buildings on streets. The relationship of the building to open space between it and adjoining buildings shall be visually compatible to the buildings, squares, and places to which it is visually related.

(F) Rhythm of entrance or porch projection. The relationship of entrances and porch projections to sidewalks of buildings, squares, and places shall be visually compatible to the buildings to which it is visually related.

(G) Relationship of materials, and texture. The relationship of materials, and texture of the facade of a building shall be visually compatible with the predominant materials used in the buildings to which it is visually related.

(H) Roof shapes. The roof shape of a building shall be visually compatible with the buildings to which it is visually related.

(I) Walls of continuity. Appurtenances of a building such as walls, wrought iron, fences, evergreen landscape masses, and building facades, shall, if necessary, form cohesive walls of enclosure along a street, to insure visual compatibility of the building to the buildings, squares, and places to which it is visually related.

(J) Scale of a building. The size of a building, the building mass of a building in relation to open spaces, the windows, door openings, porches, and balconies shall be visually compatible with the buildings, squares, and places to which it is visually related.

Conformance with Guidelines, Ordinance & Standards:

Staff has not received anything new on this application and therefore cannot update this section.

The project is in conformance with the guidelines and ordinance. The planned materials on this structure are appropriate with the change from metal siding to LP Smart siding. The design of the siding may be questionable however will show that it is new construction. While typically a garage on its own parcel would not be appropriate, this site is zoned commercial and there are other garages within the commercial district.
