

R. Dibaya explained that due to the proximity of the property to the adjacent properties, they would need a Variance to bring the property into compliance with the Ordinance.

S. Baldwin noted that this is a common occurrence for properties located in Downtown Madison.

D. Sharpe stated that his property was an adjoining property, and he had no issue with the request.

S. Baldwin then went into the Finding of Facts.

### Findings of Fact

1. *Will this variance be injurious to the public health, safety, morals, and general welfare of the community?*

M. Acosta: No, I don't see it changing anything.

R. Farris: No, I don't believe it will.

N. Burkhardt: No, I don't see a problem.

S. Baldwin: The building's been there for a long time and the general welfare has not been harmed, I think that one's met.

2. *Will the use and value of the area adjacent to the property included in the variance be affected in a substantially adverse manner?*

M. Acosta: No, again, granting this Variance doesn't change any of those situations.

R. Farris: No, I mean, the property already has by default zero (0) feet setbacks so just approving this application will just bring it into conformance.

N. Burkhardt: I agree with that comment.

S. Baldwin: We've already heard testimony from an adjacent property owner who had no problems, I think that one's met.

3. *Will the strict application of the terms of the zoning ordinance result in practical difficulties in the use of the property?*

M. Acosta: Now as the previous applicant, it just ties his hands on doing anything. It's not changing the existing structure in any way, it's just as we see so many times in Downtown where small narrow lots and the setbacks don't make sense.

R. Farris: I agree with everything Mr. Acosta said, it's an old Downtown property. There were no zoning requirements. I think the age of the property is the peculiarity in this case.

N. Burkhardt: I agree. That property has been there for a long time we're just bringing it into conformance.

S. Baldwin: I agree with Mrs. Burkhardt. I think she put it very well.

S. Baldwin made the motion to approve the application as submitted – Seconded by M. Acosta – Roll Call Vote – all ayes - Final Vote is four (4) in favor and none against – Motion Carries.

**Application BZVD-24-45 was approved in accordance with the motion and vote.**

2. **BZCU-24-62:** Darcy Leeseberg – Conditional Use Permit for a Convenience store containing a restaurant with a drive-thru and fuel station.

Location: 1200 Clifty Dr

Zoned: Heavy Manufacturing District (M-2)

John Lapointe – 3708 Swann Blvd, Tampa, FL – a representative of the applicant approached the podium and explained the request for the Conditional Use Permits. J. Lapointe explained that the drive-thru was more of a Order-up window where customers receive a text and pick it up at the window. He added that they opted to submit a Conditional Use Permit as opposed to rezoning the property as the property is currently harmonious with the adjacent properties.

S. Baldwin asked J. Lapointe if they were purchasing the land or leasing it, to which J. Lapointe responded that they planned on purchasing it contingent on subdividing a portion of the property.

A brief discussion was had about drainage, parking, and access points between S. Baldwin and J. Lapointe.

R. Farris asked J. Lapointe how long he'd like the renewal term to last.

J. Lapointe responded that he'd prefer a longer renewal term if possible.

S. Baldwin then went into the Findings of Fact.

**Findings of Fact**

- M. Acosta: No issues there, the area is serviced very well.
- R. Farris: Yeah, it's on two main thoroughfares. I think all services will be sufficient.
- N. Burkhardt: I see no issues with that one.
- S. Baldwin: It's amply met, it's on one of the main entrances to Madison.

6. *Will this use not create excessive additional requirements at public expense for public facilities and services and will not be detrimental to the economic welfare of the community?*

- M. Acosta: I see no impact with that, if anything, maybe a benefit to the welfare of the community.

- N. Burkhardt: I agree with those comments.
- S. Baldwin: It's another business, I see no harm to our economic welfare.

7. *Will this use not involve uses, activities, processes, materials, equipment, and conditions of operation that will be detrimental to any persons, property, or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare, or odors?*

- S. Baldwin: I agree, there will be no problems here.
